Product Designer | Fintech & SaaS UX Specialist | Indore, India

PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience scaling fintech and SaaS platforms through data-driven UX. Specialized in transforming complex financial products into intuitive interfaces that drive measurable business outcomes. Expert in end-to-end design systems, user research, and AI-enhanced workflows using Figma and modern design tools.

EXPERIENCE

User Experience Designer

Feb 2025 – Present

Pixela UX/UI Studio | Indore, India

- Architected end-to-end UX for mutual fund/stock portfolio platform targeting Tier 2 city users (35+), achieving 40% increase in task completion through trust-driven UI and enhanced legibility
- Built scalable Figma design system reducing developer handoff time by 60% across 50+ app screens with comprehensive component library and documentation
- Sarthi AI Trade System: Designed industry-first voice-to-visual trade recommendation interface, increasing user engagement by 3x through urgency-driven design patterns
- Developed interactive research module with real-time stock charts and fundamental analysis, improving financial literacy and boosting trade conversion rates by 25%
- Created transparency dashboard for historical performance verification, directly influencing user trust metrics and capital commitment decisions
- Executed high-velocity UI overhaul for Indian Union Budget campaign, optimizing for high-traffic volatility windows during peak market hours
- Designed gamified referral ecosystem with milestone tracking and social sharing, reducing referral-to-KYC friction by 45%

UI/UX Design Trainee

Nov 2024 – Jan 2025

Pixela UX/UI Studio | Indore, India

- Completed intensive UX training focused on fintech-specific design patterns and accessibility standards for emerging Indian markets

Product Designer

Jan 2022 – Oct 2024

Codiotic Technologies PVT LTD | Indore, India

- Led cross-functional design initiatives resulting in 35% improvement in user satisfaction scores and measurable revenue growth across multiple SaaS products
- Conducted comprehensive user research including persona development, journey mapping, and usability testing to identify and resolve critical pain points
- Delivered wireframes, interactive prototypes, and pixel-perfect UI designs using Sketch and Adobe XD with 95% design-to-development accuracy
- Partnered with engineering teams to ensure seamless design implementation through detailed specifications and iterative review cycles
- Established user testing protocols incorporating continuous feedback loops into agile design iterations

EDUCATION

Bachelor of Technology in Computer Science

Aug 2019 – May 2023

Indore Institute of Science & Technology | Indore, India

Design Fellowship - Product Design

Jan 2023 – Feb 2023

GrowthSchool |
